

# WE'RE BRINGING NEW ENERGY TO THE HUNTER

THAT'S A FUTURE MADE IN AUSTRALIA

The Hunter's been powering Australia for generations. And now, we're bringing new energy to our region. Already, clean energy projects across Australia, like the Concentrated Solar Thermal project in Newcastle (featuring the largest high-concentration solar array in the Southern Hemisphere) and the Hunter Water Renewable Energy Project, are generating new local jobs, training our people, boosting our economy and making energy more affordable. Powering the Hunter for generations to come. [Find out more at futuremadeinaustralia.gov.au](http://futuremadeinaustralia.gov.au)
