[REDACTED]

Submission:
This submission mainly relates to "The responsibilities, expectation, and accountability of MOP(S) Act staff " which the Review is seeking feedback on.

I have worked in the Office of [REDACTED] since 2016. I thoroughly enjoy undertaking the role of an electorate officer and assisting the needs of the [REDACTED] constituents regarding the Federal government policy area of Centrelink, NDIS, NBN etc. However, it is the tasks delegated by [REDACTED] that I would like to point out which in my opinion, requires review of expectations and accountability.

The word "entitled" has often crossed my mind when performing tasks requested by [REDACTED] is/was my superior and so there was little chance of not undertaking them because it led to confrontation or bullying.

[REDACTED]

This meant [REDACTED] three full time staff and three part-time staff were practically fully occupied with sifting through years of Facebook posts, identifying those who made the posts, sifting through archived emails, compiling emails with attachments to his [REDACTED] There were hours and hours of tax payer funded time allocated to upholding [REDACTED] reputation rather than [REDACTED] utilising [REDACTED] own funds to do this rather than office staff.

In my opinion, this expectation of work undertaken by publicly funded electorate officers does not encompass the above and should be reviewed.
