I write regarding the matter of potential covid vaccine and my desire to be fully informed and appraised of ALL facts before going ahead. I'd be most grateful if you could please provide the following information, in accordance with statutory legal requirements.

1. Can you please advise the approved legal status of any vaccine and if it is experimental?
2. Can you please provide details and assurances that the vaccine has been fully, independently, and rigorously tested against control groups and the subsequent outcomes of those tests?
3. Can you please advise the entire list of contents of the vaccine I am to receive and if any are toxic to the body?
4. Can you please fully advise of all the adverse reactions associated with this vaccine since its introduction?
5. Can you please confirm that the vaccine you are advocating is NOT experimental mRNA gene altering therapy?
6. Can you please confirm that I will not be under any duress from yourselves as my employers, in compliance with the Nuremberg Code?
7. Can you please advise me of the likely risk of fatality, should I be unfortunate to contract Covid 19 and the likelihood of recovery?
8. Can you please advise me if I were to experience any adverse reactions is the manufacturer of the vaccine liable? If the manufacturer isn't liable will the company, I'm currently employed with be responsible & liable as it is their request that I have the vaccine to carry on my employment?

I also request risk assessment that shows an unvaccinated person is a threat and more risk than a vaccinated person being at the workplace. (A risk assessment is required by law and must be done at the actual workplace! Not at some high up bosses office).

\* ask for the vaccine MSDS, (it is law for the workplace to provide a MSDS).

\* ask your employer to provide substantial scientific evidence to prove the vaccines are safe, effective and necessary - in those exact words (as the TGA was asked this but couldn't provide it).

Once I have received the above information in full and I am satisfied that there is NO threat to my health, I will be happy to accept your offer to receive the treatment, but with certain conditions – namely that:

1. You confirm in writing that I will suffer no harm.
2. Following acceptance of this, the offer must be signed by a fully qualified doctor who will take full legal and financial responsibility for any injuries occurring to myself, and/or from any interactions by authorized personnel regarding these procedures.
3. If I should have to decline the offer of vaccination, please confirm that it will not compromise my position and that I will not suffer prejudice and discrimination as a result?

I would also advise that my inalienable rights are reserved.

Should I be dismissed, due to my decision, I request the company to give me a letter with my coordinators name, managers name, CEO, COO and CFO's name. The organisations name, my name, and the date of said decision as a dismissal if I'm not vaccinated. I will then seek legal action and involve Fair Work. As you may be aware Work Safe is at State Level, Fair Work is at Federal Level. A formal complaint will be put in order.

State that you stand to lose your job as of Dec 1 and the following information:
